*The only ammunition in the world with Ballistic Temperature Independence™ technology.*

# AUSTRALIAN OUTBACK

## EXTREME PERFORMANCE – WHATEVER THE WEATHER

Australians are some of the toughest, most rugged, hard as nails blokes you'll ever encounter. Australia's hunters are even more so! Whether they're hunting buffalo in croc infested swamps, stalking deer in the snow (yes it does snow Down Under), or tracking bush pigs across some of the harshest terrain on earth, they want reliable ammunition. Only Australian Outback fits the bill.

## BALLISTIC TEMPERATURE INDEPENDENCE™ (BTI)

Our guys in white coats have developed a new line of ammunition that leaves your barrel at the same high velocity at extreme temperature ranges. No matter if it's scorching hot or freezing cold, Australian Outback ammunition delivers consistent extreme high velocity and ultra-reliability you demand in all shooting circumstances. For the technically minded, it's called Ballistic Temperature Independence™ (BTI). But all you really need to know is Australian Outback ammunition will never let you down.

## PERFORMANCE

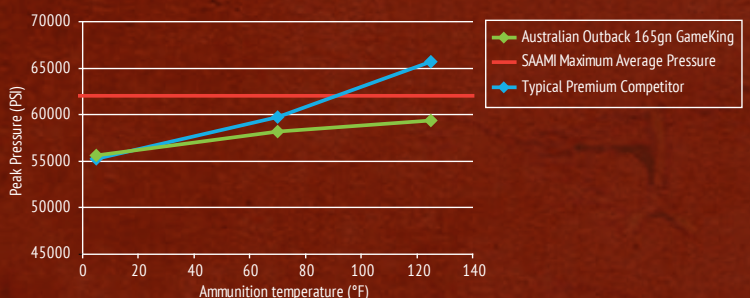

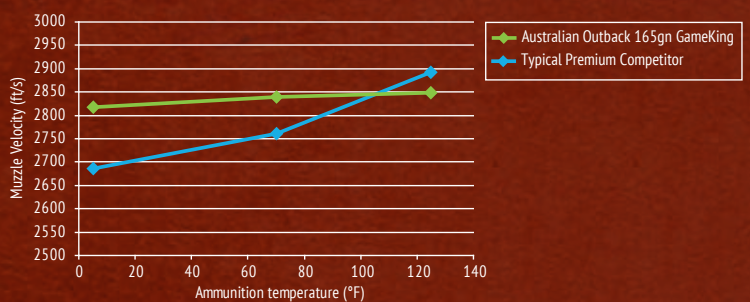

Our unique high energy propellants drive our custom - crafted ammunition to new levels of performance:

1. .223 REM - 55gr Sierra BlitzKing – Muzzle Velocity 3277 f/s.
2. .223 REM - 69gr Sierra HPBT MatchKing – Muzzle Velocity 2901 f/s.
3. .308 WIN - 165gr Sierra SBT GameKing – Muzzle Velocity 2839 f/s.
4. .308 WIN - 168gr Sierra HPBT MatchKing – Muzzle Velocity 2755 f/s.
5. .308 WIN - 150gr Swift Scirocco II BTS – Muzzle Velocity 2817 f/s.

Australian Outback ammunition provides:

1. Ballistic Temperature Independence™ (BTI) propellant which provides consistent performance across extreme temperature ranges.
2. Considerable velocity gains over other factory ammunition.
3. Performance you can rely on.

### Ballistic Temperature Independence™ .308 Sierra 165gr SBT GameKing

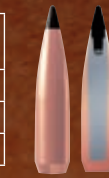

## .308 WIN - 150gr Swift Scirocco II BTS

Scirocco II bonded is the perfect bullet design for today's fast, flat-shooting, long-range cartridges. Its secant ogive, 15-degree boat tail base and Signature Black Tip™ create a sleek, aerodynamic profile that helps maintain down-range velocities and flat trajectories.

The extra heavy tapering jacket wall with an internally bonded lead core provides structural integrity, reliable expansion and penetration with 80%+ weight retention.

Ammunition Temperature (°F)	Muzzle Velocity (ft/s)
5	2780
70	2817
125	2816

**.308-180 Grain**  
2.5x expansion

**1750 fps**  
.490 Dia.  
99% Wt.Ret

**2100 fps**  
.650 Dia.

## .308 WIN - 165gr Sierra SBT GameKing

Ammunition Temperature (°F)	Muzzle Velocity (ft/s)
5	2817
70	2839
125	2849

GameKing® bullets are designed for hunting at long range, where their extra margin of performance can make the critical difference. GameKing® bullets feature a boat tail design to bring hunters the ballistic advantage of match bullets.

### RECOMMENDED GAME

FERAL PIG

DEER

BUFFALO

## .223 REM - 55gr Sierra BlitzKing

Ammunition Temperature (°F)	Muzzle Velocity (ft/s)
5	3200
70	3277
125	3289

Varmint hunting places extreme demands on bullet performance. Such bullets must be exceptionally accurate to hit small targets, lightly constructed to provide explosive expansion while minimizing ricochets, and lightweight to obtain high velocities with flat trajectories. Sierra BlitzKing® bullets are the standard against which other brands are measured.

### RECOMMENDED GAME

RABBIT

FOX

COYOTE

## .223 REM - 69gr Sierra HPBT MatchKing

Ammunition Temperature (°F)	Muzzle Velocity (ft/s)
5	2905
70	2901
125	2920

### RECOMMENDED FOR COMPETITIVE SHOOTING.

The hollow point boat tail design provides that extra margin of ballistic performance match shooters need to fire at long ranges under adverse conditions.

## .308 WIN - 168gr Sierra HPBT MatchKing

Ammunition Temperature (°F)	Muzzle Velocity (ft/s)
5	2738
70	2755
125	2766

### RECOMMENDED FOR COMPETITIVE SHOOTING.

For serious rifle competition, you'll be in championship company with MatchKing® bullets. Our exacting tolerances assure record-breaking accuracy you can depend on.

# AUSTRALIAN OUTBACK

EXTREME PERFORMANCE - WHATEVER THE WEATHER

## OUR STORY

Captain John Whitney (the guy in the picture) founded Australia's first ammunition factory in the 1880s. He had a reputation for being a great innovator, committed to producing quality ammunition.

Through the first and second world wars and the wars in Vietnam and Korea, ammunition depended on by Australian soldiers and allied forces was produced in our factories. Our military ammunition continues to command an unrivalled reputation for precision and reliability.

Today, Australian Outback ammunition is proudly produced according to the principles established by the Captain. Our commitment to quality and our attention to detail is driven by our customers' expectations and our proud manufacturing heritage.

Our unique Ballistic Temperature Independence™ technology, teamed with a relentless focus on achieving perfection, has resulted in ammunition the Captain would be proud of.

Australian Outback - Extreme Performance - Whatever the Weather.
